Translation Notes:

You might notice as you're reading that the main boy is named "Boy kun". That is because he has no name. That's right, he has no name. You never soon him again either— Chapter 2+ seems to have a recurring character, who is also unnamed. For that reason, E-A and HAO decided to have a poll to name this character at E-A forum

P.S. By no name I mean his name is replaced by two circles, this is used in hentai games so the player inserts his own name. So yeah, go ahead and enter your own name =D
